**VINCENT ROLAND VAYO** died of cancer of the esophagus at home in Dunwoody, Ga., on December 20, 1966.

Vince grew up in Millbury, Mass., and graduated from Millbury High in 1943. He enlisted in the U.S. Navy and was sent to Dartmouth as a member of the V-12 officer training program. After completing requirements in Hanover and at midshipman school at Columbia, he was given frogman training at Norfolk because of his prowess as a swimmer. Commissioned an ensign, he served in the Pacific and in China.

In 1946 Vince returned to Hanover, found spare-time employment, and worked his way through his final two years at Dartmouth with the assistance of the G.I. Bill. He then spent two years with Eastern Airlines at LaGuardia. During the Korean War Vince rejoined the navy. During this period he met Helen Gloyas of Norfolk, whom he married in 1951.

Discharged as a full lieutenant, Vince went to work with IBM and remained with the firm until his death, specializing in computer-assisted business systems design, development, and marketing. He worked in Baltimore, Roanoke, Berwyn, Pa., and Stamford before moving to Dunwoody, a suburb of Atlanta, in 1974. Vince and the family enjoyed our 25th Reunion in 1973.

Surviving are Helen, daughters Laura and Denise, three sisters, and one brother. Vince was a serious, highly capable Dartmouth man who quietly carried out his duty to his country, his company, and his family. His 48 classmates extend sincerest condolences to Helen and his family.
