

## ***Mini-Reunion Update***

Dear Classmate: ,

### **Registration is Open!**

Registration for our November 6 virtual mini-reunion will now begin. As before, we will be using the Zoom platform, there are no fees for attending and we look forward to a high turnout. Couples may register separately or together as we will not be holding break-out groups. To register, click on the Registration button below or copy and paste:

After registering, you will receive a confirmation email containing information about joining the meeting.

### **Classmate Panelists**

Four classmates will speak about their “roads traveled” over the past 60 years. In the prior two mini-reunion update letters, we’ve highlighted **Doug Zipes** and **Bob Tunnell**. The other two are **Chris Bosworth** and **Jerry Greenfield**.

**Chris Bosworth** will narrate and chronicle her experiences and challenges as the wife of Steve Bosworth, the ambassador to two key U.S. allies: the Philippines (1984 to 1987) and South Korea (1997 to 2001). She will share their dangerous times in the Philippines and relate tales about Ferdinand and Imelda Marcos, the People Power revolution and follow the history of the USA’s role in the Philippines during their time living there. In South Korea, Steve and Chris witnessed one of the most difficult times in South Korean history – their financial crisis. You will hear about two projects that

Chris led that brought Koreans, Americans living there, and the diplomatic community together; and you will meet South Korea's President Kim Dae Jung.

**Jerry Greenfield** was an engineer, financial analyst, administrator of a contract between two major industrial enterprises, and an elected official in his city. He will comment on how a young, recent engineering grad became involved in a pioneering effort to put men on the moon, developed software to evaluate complex financial arrangements, and provided legal support for cleanup of a nuclear waste dump. Providing "legal support" motivated Jerry to get a law degree to go along with his Tuck - Thayer Industrial Administration degree and his Tuck MBA.
