

## 2021 Fall Mini-Reunion

We had another great Virtual Mini-Reunion thanks to the Leadership of Chair **Pete Bleyler**. We had more than 100 registrations and during the day often had more than 70 in attendance at any one time.

Our first session included our classmates **Doug Zipes** and **Christine Bosworth**. Doug, a cardiologist reviewed his book *Bear's Promise* and showed us how it told the story of his real-life adventures combating erroneous claims of a manufacturer of electric stun guns. He also illustrated the difference between a technical book and a book of fiction.

Christine shared her experience as an ambassador's wife as she accompanied **Steve** to posts in the Philippines and Korea.

Our Second panel was composed of two classmates, each possessing a law degree among other attributes. **Bob Tunnel** pursued an illustrious law career before becoming involved in a fraudulent investment program which led to his arrest and incarceration. He shared with us details of his missteps and his recovery from addiction to alcohol and his investment scheme.

**Jerry Greenfield** told us how he evolved from his Engineering science degree at Dartmouth, came back to complete a Tuck MBA, added a law degree gained at night and helped banks advance using techniques developed in aerospace before he became a city councilman in Richland, Washington.

Our third session was a collaboration between Ron Wybranowski and Sandy Wheeler. Sandy has developed great skill in photographing very ordinary objects in her daily walks with her dog and converting the photos to art. She shared her approach and a few examples before Ron launched a slide show of part of her collection.

Our final session, led by president **Maynard Wheeler** and our coordinator of student activities, provided an opportunity to meet two students who have benefited from grants made available by the class of '61. Both have joint majors with music. Ted McManus marries music and physics and Elias Rosenberg combines computer science with music. The details of their projects were exciting and highly technical. **Glenn Gemelli**, our engineer/musician professed to understand their approach and thought he might be able to apply it to his blue grass band.

Shown below is one of Ted's slides of his organization of his 16-note scale that produces chords unheard by any of us before.

The main diagram is a large grid of triangles. The top row contains notes: A<sup>b</sup> (5), E<sup>b</sup> (6), B<sup>b</sup> (1), F<sup>b</sup> (8), C<sup>b</sup> (3), G<sup>b</sup> (x), D<sup>b</sup> (5). The second row: C<sup>b</sup> (3), G<sup>b</sup> (x), D<sup>b</sup> (5), A<sup>b</sup> (0), E<sup>b</sup> (7), B<sup>b</sup> (2), F (9). The third row: E<sup>b</sup> (7), B<sup>b</sup> (2), F (9), C (4), G (5), D (6), A (1). The fourth row: G (5), D (6), A (1), E (8), B (3), F<sup>#</sup> (x), C<sup>#</sup> (5). The fifth row: B (3), F<sup>#</sup> (x), C<sup>#</sup> (5), G<sup>#</sup> (0), D<sup>#</sup> (7), A<sup>#</sup> (2), E<sup>#</sup> (9). The bottom row: D<sup>#</sup> (7), A<sup>#</sup> (2), E<sup>#</sup> (9), B<sup>#</sup> (4), F<sup>#</sup> (5), C<sup>#</sup> (6), G<sup>#</sup> (1).

Diagrams to the right of the main grid:

- A triangle with 'minor' and 'major' labels and 'fifth' labels on its sides.
- A triangle labeled 'L' and 'R'.
- A small grid labeled 'H'.

Diagrams to the left of the main grid:

- A triangle labeled 'PRL', 'LPR', 'S'.
- A triangle labeled 'NLP', 'LNL', 'N'.
- A triangle labeled 'L'.
- A triangle labeled 'P'.
- A triangle labeled 'R'.

Finally, David Prewitt, presented two Special Recognition Class awards to **Oscar Arslanian** and **Henry Eberhardt** for their long-time service to the class and college. Oscar was particularly cited for initiating the Legacy of the Arts Fund now providing over \$50,000 annually to support programs at the Hopkins Center while Henry was recognized for his long service particularly in the area of our Dartmouth College Fund Activities.
