

Virtual Reunion

61st Day March 2nd

Class Virtual Reunion. Most of our classmates are unable to attend our Mini-reunions, whether in Hanover or in exotic places like Charleston, Williamsburg or London. Our class demonstrated in October and January that we can have very effective Virtual Mini and Micro Virtual Reunions using technology. According to a conversation that Pete Bleyer and I had with two college representatives last week, no other class has been so successful in putting together such activities.

Despite these successes we don't want to give up what has now become a class tradition. We conducted our Fifth Virtual Reunion on the **61st day** of 2021. For the first time, we had an informal class Zoom happy hour at 5:00 p.m. EST.

Some classmates sent in a photo, some just attended the Happy Hour and some did both. In the pages that follow, I've included the photos submitted and Zoom-snapshots of attendees. Since the submitted photos were much more favorable representations than the Zoom-shots, if you submitted a photo you probably were not included with a Zoom-shot.

By my best effort, assisted with back-up from Vic Rich, 74 classmates, spouses, and widows participated either with photo, Zoom, or both for our most successful 61st Day ever. hbm
