

**Brian Hale Hewins**  
**(2/5/1943- 2/9/2013)**  
**by Roberta Hewins**

Brian grew up in Evansville, IN, the oldest of four children. He attended Bosse High School before entering Dartmouth in 1960. An avid skier he took advantage of the slopes in Hanover while pursuing pre-med studies. Graduating in 1964, he then attended Temple University Medical School. He married his high school sweetheart in 1964 and they spent the next four years in Philadelphia. Their first daughter, Becki, was born his senior year.

The next move was to Madison, WI, where Brian spent a year interning at University of Wisconsin. Upon completion of that year the family moved to Ft Sill, OK, where he spent the next two years as a general medical officer in the Army. While here, daughter Julie was born. In addition to military duties he took up flying which meant many adventurous family trips!

The next move, in 1972, a permanent one, was to Los Angeles where he spent four years

as a radiology resident at LA County Hospital. Upon finishing his training he joined Arcadia Radiology Medical Group for the next thirty years.

When not working he became an avid runner, eventually running in the Boston and New York marathons. The family continued to ski several times a year. In addition to skiing Brian became an avid windsurfer leading to several trips in search of the wind. Baja, Hawaii and the Columbia River Gorge were favorites. Cycling also became an interest and he and Bobbi took many trips throughout the US as well as several European countries. An inveterate traveler he and Bobbi managed to see many parts of the world, trying to take one major trip a year.

Brian was from a golfing family and he eventually returned to that as well. Many trips the family took were to various golf courses throughout the US and Canada. He was a member of San Gabriel Country Club in California as well as The Rim and Chaparral Golf Clubs in Arizona. In addition to sports Brian as an avid reader. He also enjoyed art, music, and drama which the LA area provided in abundance.

In 2006 he sold his share of the practice and moved to Payson, AZ, where he helped upgrade the radiology department at the small local hospital. After a very brief retirement he resumed practicing fulltime at Torrance Memorial Medical Center in Torrance, CA. He worked there until the day he was diagnosed with glioblastoma which proved to be a devastating and swift illness. He passed away seven months later,

Throughout the years the family continued to grow. Both daughters married and provided us with eight wonderful grandchildren who were a great source of enjoyment. Family trips and holidays together produced many happy memories. While the family misses him terribly, they are thankful for the many good years we were able to share.
